Windows Vista® / Windows Server® 2008
"USB Printer Driver Installation Guide"

* For the Windows Server 2008 users : Windows Vista screens are used in the examples where the installation process is common to the Windows Vista and the Windows Server 2008.
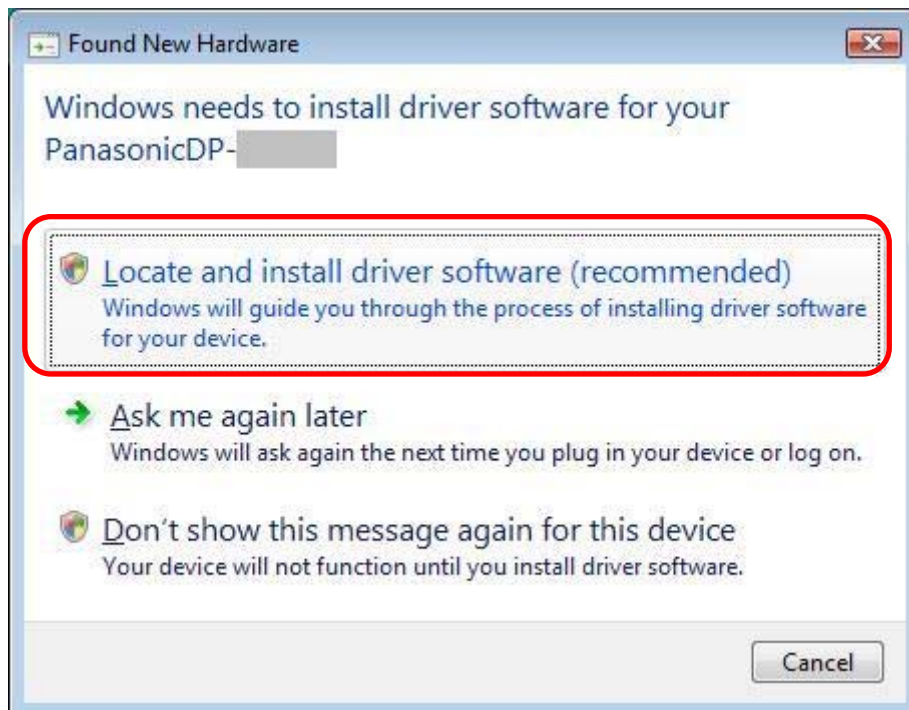

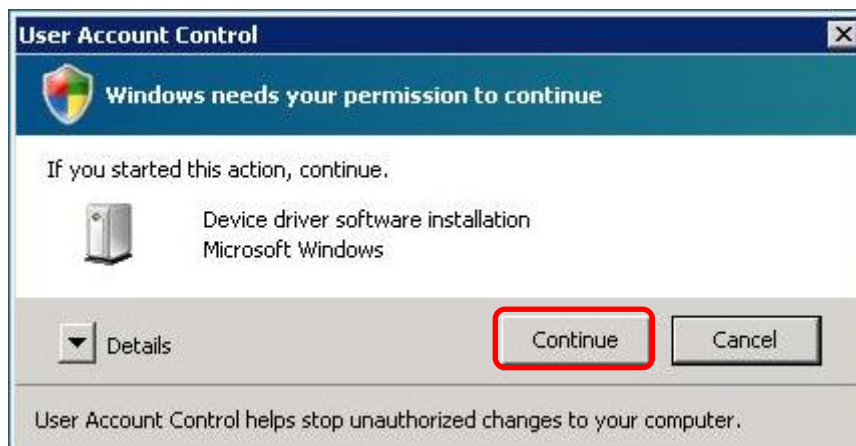

1

Connecting the Device

With the **Device Power Turned OFF** connect the USB cable to your computer, then **Power the Device On** to begin the Plug and Play installation.

Found New Hardware

Click "**Locate and install driver software (recommended)**".

If this screen appears, click " **Continue** " .

<< For Windows Server 2008 >>

Click " **Don't search online** ". Skip to **Step 3**.

2   Windows is searching the Printer Driver software.
- Searching process may take few minutes.

3

Click **"I don't have the disc. Show me other options"**.

4

Click **"Browse my computer for driver software (advanced)"** .
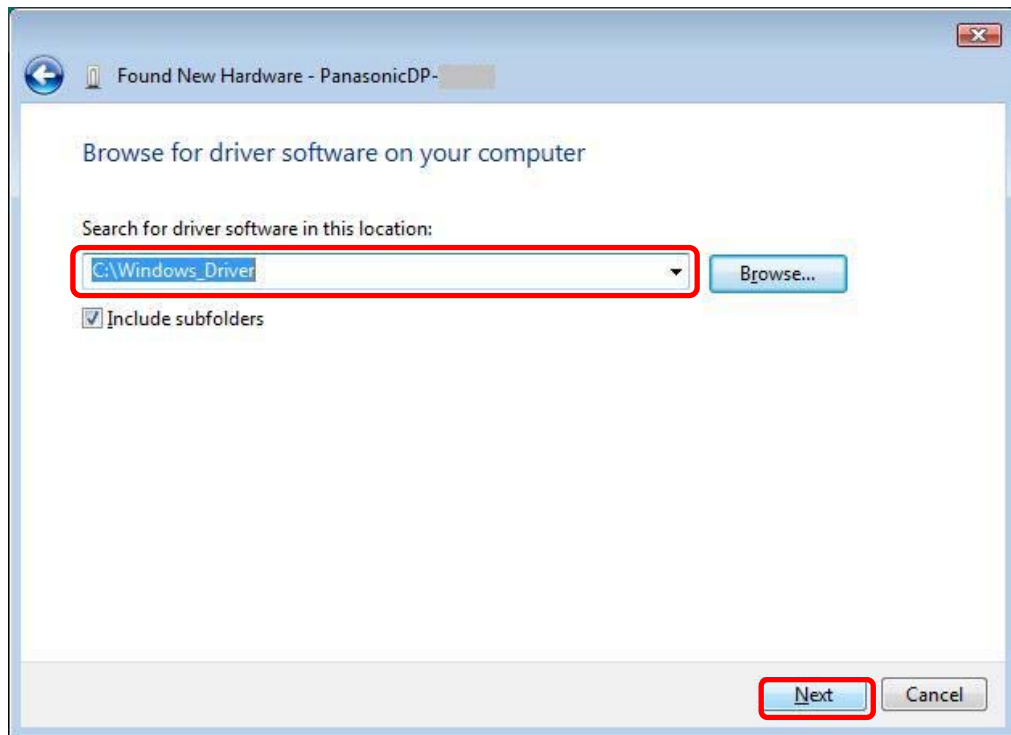

5 Click **"Browse"**.

6 Select the folder where the print driver software is located,
then click **"OK"**

7 Make sure the folder selected in the previous step is shown in the pull-down menu, then click **"Next"**.

8 When the warning message appears click **"Install this driver software anyway"**.
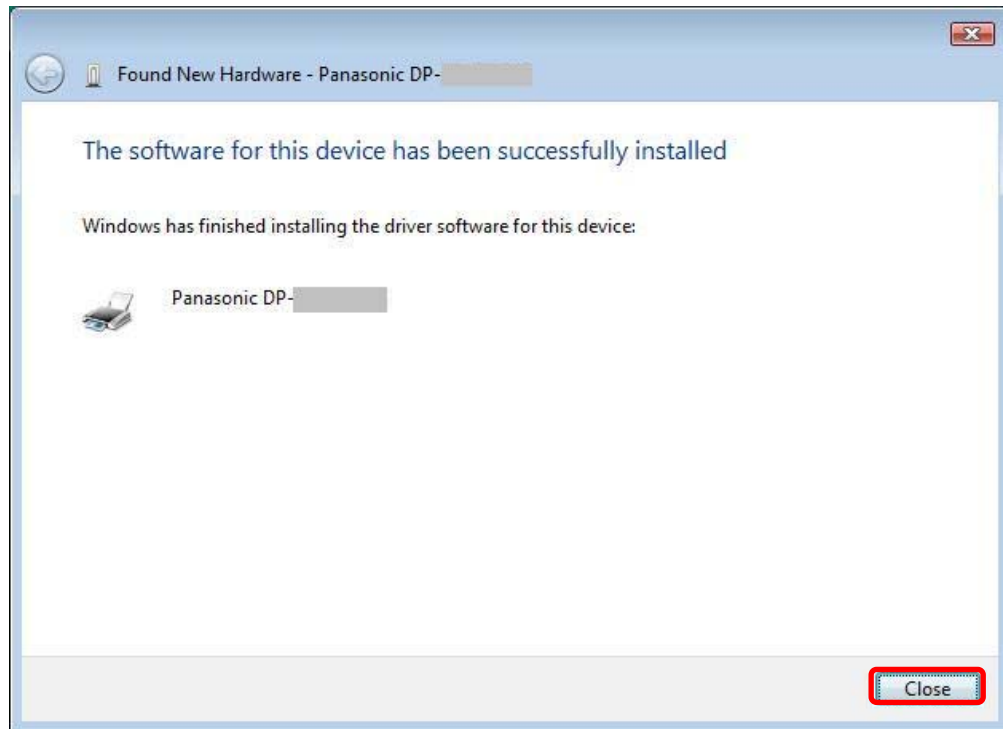

Note: Although the drivers are not digitally signed by Microsoft Corporation, we have verified proper operation within the Windows operating system environment.

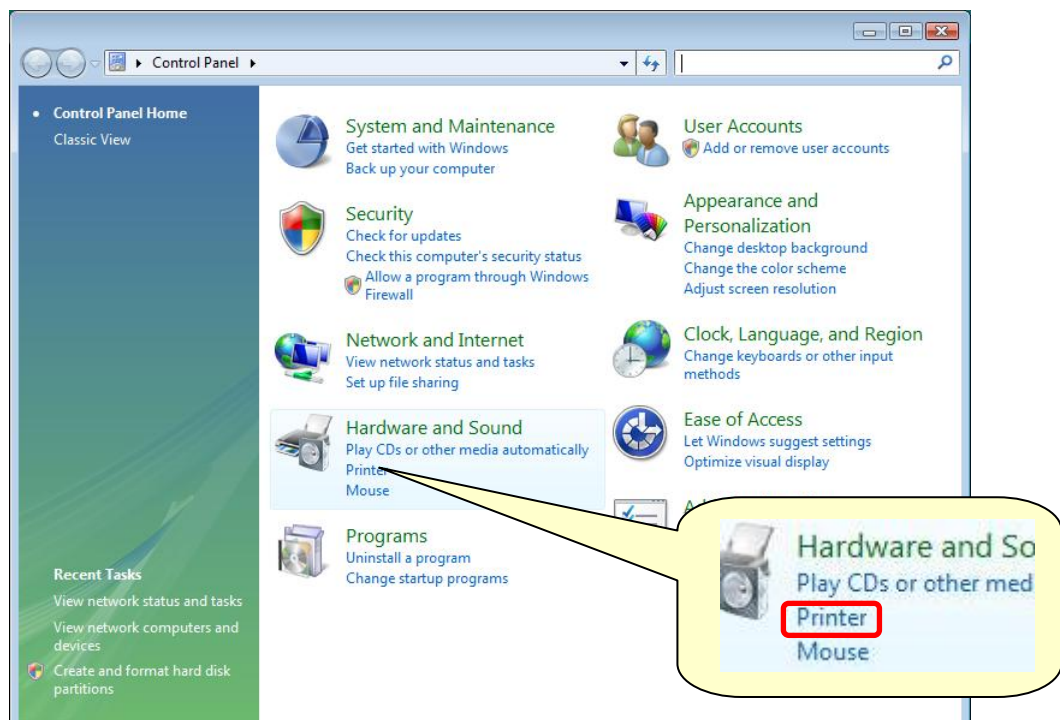

5

9	**Completing the Found New Hardware Wizard** Click **"Close"**.

10	To display the new printer icon. In the **<Control Panel>** click **"Printer"** * For Classic View ：Click **"Printers"**.

11   A new printer icon will appear in the **\<Printers\>** window.
